

Alexa Voice for Sales CRM with Easy Voice

- Place Orders
- Get Account Balances
- Create Support Tickets
- Request Service

“Easy Voice empowers our customers to reach us faster. It has improved customers service. Easy Voice gives us a competitive edge in the market that is unmatched by any of our competitors”

Dan Foudray
CEO
CBPA Manufacturing

Communicate with Customers via Voice Assistance

Customers simply ask for a product or service and are connected without wires or phones to an associate in sales, service or support. Meanwhile the request can be initiated in the existing CRM solution.

Track Orders

Empower customers to initiate and track the status of orders by voice assistance request.

Manage Credit and Receivables

Customers can leverage ERP API access to open receivables, credit status, .and other financial data with popular ERP solutions including SAP, Oracle Financials, Netsuite, MS Dynamics and others.

CRM Reports

Stay up to date with timely sales reporting, current opportunities, and other sales and support related reporting information.

About Easy Voice

Easy Voice is the first voice assistant platform designed for Sales, Support and Service CRM. Easy Voice CRM has developed products for sales, service and support companies since 2007. We believe in making customer engagement easier for our customers.

**B2B and B2C Customer
Sales, Support and Service**

Easy Voice accommodates both B2B and B2C customer engagement. Keep customers informed with current products and services. Empower customers to ask via voice about upcoming product releases and detailed product information.
