“Easy Voice has enabled our senior care business to grow by clearly having leading technology that sets us apart from our competition”

Ty Stevenson
Director of Senior Care

Voice Assistant for Senior Assisted Living by Easy Voice

Voice Assist for Assisted Living

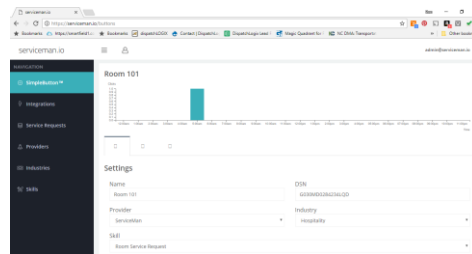

Alexa Voice Assistant Designed to Lower Costs, Increase Revenue, and Improve Customer Experience

**Assisted Living
at Home and Facility Care**

Communicate with Family, Front Desk and Caregivers

Seniors simply ask for any member of the **family, caregiver, front desk** or other contact and are connected without wires or phones to a loved one, physician, or caregiver instantly.

Centralized Management

View and monitor all activity for each location and room with easy access to times, dates, and requests for assistance. View historic graphs and integrate with existing systems to share data with other systems.

“Drop In” Monitoring

With remote “Drop In” monitoring, loved ones and caregivers can easily drop into any location to speak or view a location at any time, without the use of phones or cameras. Simply ask to “Drop in on Mom” and Easy Voice Alexa connects the authorized person directly to a room.

Hands Free Safety Calls

Connect to any room without a phone, without extra expense, simply by saying the room number or name. Phone lists are prepopulated to connect senior loved ones with a host of contacts to easily connect.

Residence Revenue Share

Each facility receives a percent of the subscription value for every resident subscribed to the service. Add facility revenue while increasing care quality and distinctive competency in the market.

Residential and Facility

Assisted Living

Easy Voice accommodates both residential and facility type senior assisted living. Each Voice Assistant Device is configured to manage thousands of rooms at a single facility or a residence with a few rooms.

Track Medications

Record medications and medication reminders automatically with Easy Voice medication capture. Create a permanent record of each prescription and the time taken. Never forget or lose track of prescription medications.

Easy Voice Administration

1) Add a Resident/Patient

2) Add Loved Ones & Caregivers

3) Start Talking, Start Listening
